Clusters

Masculin

A heatmap visualization showing similarity scores between six clusters (labeled 0 to 5 on both axes). The color scale ranges from dark purple (low similarity) to yellow (high similarity). The diagonal elements represent self-similarity, all of which are 100. Notable off-diagonal values include 60 at cluster pair (4,1) and 83 at cluster pair (1,2).

	0	1	2	3	4	5
